

MAGNER®

MODEL 35

The world's #1 currency counter

MAGNER® Model 35

The new design of the model 35 and its new features continue to make it the industry's standard in basic counting and simplicity of operation.

With speed selection of up to 1500 notes per minute and now also with size detection, this well established high quality and most reliable machine will continue its dominance as the world's #1 selling currency counter.

with size detection
